

# BomberPizzaiolo

In the last 300 years, the 2 most famous pizzeria Neapolitan make a merciless war.

## The concept :

The PizzaioloBomber is a solo/duo game. Be the first to catch all the ingredients to make your pizza to win. But be careful of your opponent who will make your life hard and try to kill you.

The gaming ground is an arena. You will find 2 different walls. The first type is destructible unlike the second. You can curd your opponent progression by build some destructible wall or by putting bomb. These bombs can destroy wall and clear a path to the precious ingredients necessary to make your pizza. Don't abuse it because bombs and wall need time to reload.

**Bonus :** During the games, you can use somes bonus.

- The **bomb up** and the **wall up** allows you to reload immédiatly a wall or a bomb.
- The **speed up** give you a speed up.
- The **wall pass** allow you to cross destructible wall.
- You can also take a **shield** that make you temporary immortal.
- Finally the **fire up** increase the range of you next bomb.
